

Adding library resources to your course using LibGuides CMS

1. Turn course editing on

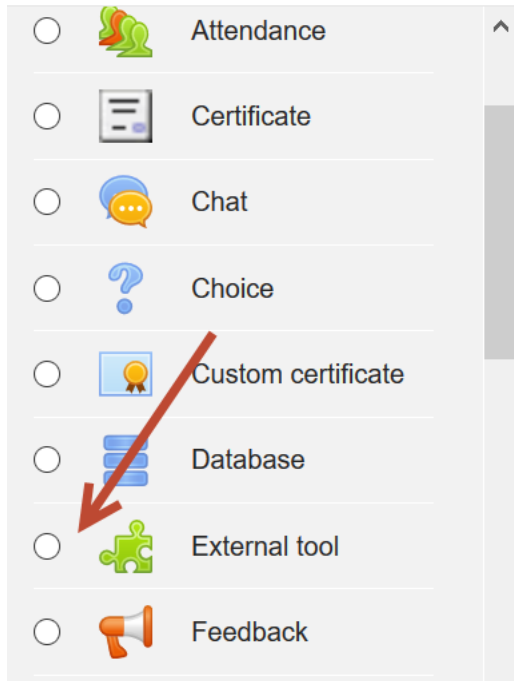

2. Add an activity or resource

3. Select External tool

Add an activity or resource

4. Add the External tool

External tool activities differ from URL resources in a few ways:

- External tools are context aware i.e. they have access to information about the user who launched the tool, such as institution, course and name
- External tools support reading, updating, and deleting grades associated with the activity instance
- External tool configurations create a trust relationship between your site and the tool provider, allowing secure communication between them

Buttons: Add, Cancel

5. Name the tool (you may give it any name you wish)

Adding a new External tool

▼ General

Activity name

- You must supply a value here.

6. Select a Preconfigured tool

Activity name  Library Resources

Preconfigured tool  Automatic, based on tool URL    

Select content

7. Select LibGuides CMS

- Automatic, based on tool URL
- MHCampus
- Shadow Health
- Smarthinking
- VitalSource Bookshelf
- LibGuides CMS**

8. Scroll down and click Save and return to course

e settings

Save and return to course Save and display Cancel

this form marked  .

9. LibGuides CMS will now show as a link in your course

  [Library Resources](#) 

Edit ▾

[+ Add an activity or resource](#)

10. When students click on the link library resources relevant to the course will appear

[APA Style](#)

This research guide provides resources on APA style.

[APA Tutorial](#)

An interactive tutorial discussing the basics of APA format.
