

You have several options for finding your courses in Moodle.

1. Use the Moodle Dashboard located on the Moodle homepage.

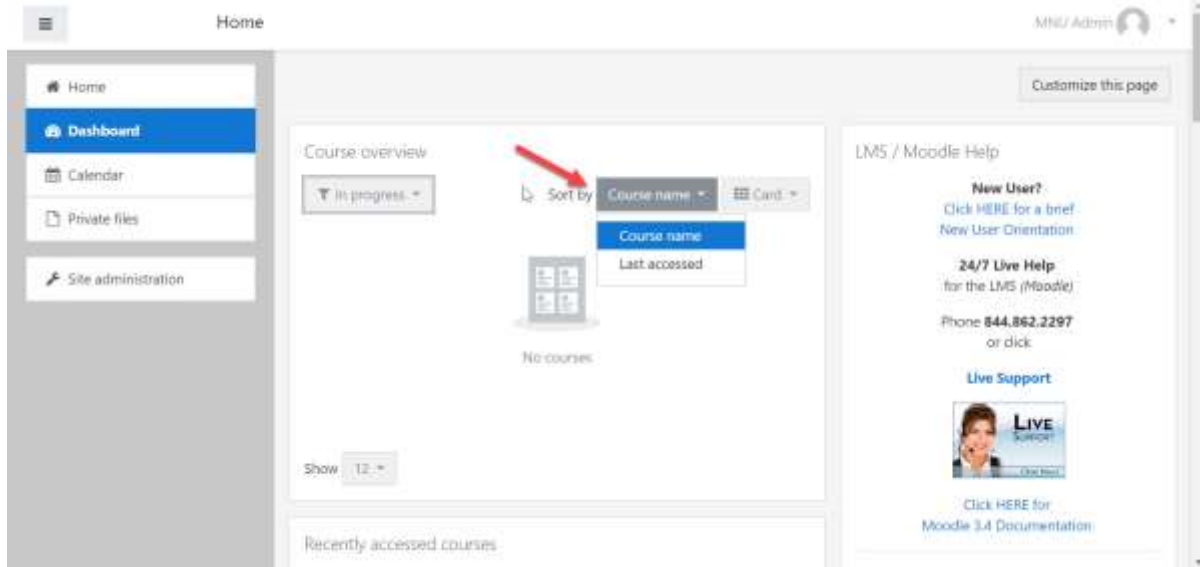

When you click on the Dashboard, you will be able to access the "Course Overview" which will organize your classes in the following categories: " All, In Progress, Future, Past, Starred, or Hidden". Using the drop-down menu, you can select which list will populate.

2. Use the "Course Overview" to sort for your courses by name or access.

Using the drop-down menu, you can select to populate course courses from most recently accessed to last, or you can list your courses, by name, in alphabetical order.

3. Search for your courses directly using the "Search Courses" box on the Moodle homepage.

To search for courses, you will need to include course catalog number and the course reference number or CRN and click "Go".
